

Place Standard – How good is Kinross-shire?

We are using the Place Standard tool to find out what it is like to live in and around Kinross. This tool is designed to help us – the people who live and work here – show what is good about the place and where it could be improved. As we gather together the different experiences and ideas of local communities, we can start thinking about any changes that could make the place better, how we can tackle inequalities and how we can work together to try to make that happen.

For the next few months, we will be having conversations in groups and with individuals and hearing about people’s experiences of Kinross. If you would like to find out more about how and where you can get involved, please get in touch with Carol (contact details below).

You can also share your views online at <https://placestandard.scot> or by downloading the Place Standard app. Computers are available in Loch Leven Community Library. You will need to put in the Group ID when prompted. For Kinross this is: **7453-91**. For the Group IDs for other areas, please get in touch with Carol.

For any further information or if you have any questions or suggestions, please contact Carol Goodey by email cgoodey@pkc.gov.uk or telephone 01738 475085.
